- Aarhus is Denmark's second largest city with a population of approximately 300,000 happy residents.
- New districts are rising on the old harbor areas, and we are delighted with the lighthouse, which is Denmark's tallest building at 142 meters.
- Our head office is located 3 km from the city center with lot of space and parking. 😊

How service and creativity make a difference

- Since our start-up over 30 years ago, the 2 keywords for us have always been service and creativity.
- Service because we have always gone the extra mile to ensure that the customer gets the right product and preferably at an attractive price.
- It is rare that we have to announce that we are sold out or that the trip is not possible, because we always find solutions.

- Customers love our service, but combined with our creativity, we create the right solutions.
- We always ask a lot of questions, when do you need to arrive, maybe it is better to travel the day before.
- Do you need to be rested on the day of arrival, what is best, should it be premium or business class.
- The location of the hotel, which room type is suitable and what about a transfer.

- Customers love our service, and they are very happy with our employees.
- Our employees and the travelers of our customers know each other very well, as everyone has been with us for many years.
- We have both employees and customers who have been with us for 20 - 25 years.
- Let's share our good customers in GlobalStar 😊
